VISHVAMBRUTH JAVAGAL THIMMEGOWDA

QUALITY ENGINEERING MANAGER | PMP® | CSM® | ISTQB® | SDET-Python | PyTest |Selenium | Playwright

Tumkur, Karnataka, India • +91 80736 88499 • vishruth.cse@gmail.com

• **LinkedIn:** linkedin.com/in/vishvambruthjt • **GitHub:** github.com/vishruth143

PROFESSIONAL SUMMARY

Quality Engineering Manager and certified Project Manager with 16+ years of progressive experience leading global QA and SDET teams across Retail, Supply Chain, Aftermarket Service Solutions, Oil & Gas, Insurance, and Financial Services. Proven success architecting Selenium/Python and Playwright/Python automation frameworks, embedding Shift-Left and Shift-Right quality practices, and operationalizing CI/CD pipelines that cut regression cycles by 60%+ and defect leakage by 30%. Adept at building high-performing cross-functional teams (10+ engineers), managing US-based stakeholders (8+ years onsite), and aligning quality engineering KPIs with business outcomes across Agile, SAFe, and Hybrid delivery models.

CORE COMPETENCIES

- Quality Engineering Leadership • Test Automation Strategy & Architecture • SDET Coaching & Hiring
- Selenium / Playwright / Python / PyTest / Pytest-BDD • Appium (Mobile) REST API Automation • Cypress
- CI/CD (Jenkins, GitHub Actions, Azure DevOps) Docker • AWS • Allure Reporting • Locust • k6
- Project & Program Management • Agile / Scrum / Kanban / SAFe / LeSS • Risk, Budget & Capacity Planning
- Stakeholder Management • KPI/OKR Reporting • Defect Triage • Release & Environment Management

FEATURED OPEN-SOURCE PROJECT

Selenium-Python Automation Framework — github.com/vishruth143/Selenium-Python-Automation-Framework

- Architected a scalable, layered Page Object Model (POM) framework supporting UI (Selenium), API (Requests), and Mobile (Appium) automation under a single Pytest runner.
- Engineered environment-driven configuration (YAML/JSON/Excel) with multi-region (DEV/QA/STAGE/PROD) and multi-app routing, enabling true write-once / run-anywhere execution.
- Implemented cross-browser execution (Chrome/Firefox/Edge) on local and Selenium Grid, with auto-wait, retry (pytest-rerunfailures), and parallelization (pytest-xdist) reducing regression runtime by ~70%.
- Integrated Allure & HTML reporting, screenshot/video capture on failure, rotating file logger, and Microsoft Teams notifications for real-time quality signals.
- Containerized execution with Docker and wired CI/CD via GitHub Actions and Jenkins; enforced code quality with Pylint at a mandatory 10.0/10 score.
- Added BDD support (Pytest-BDD), data-driven testing (JSON/Excel), OAuth2-enabled API client, and Locust-based performance testing — demonstrating end-to-end QE coverage.

Playwright-Python Automation Framework — github.com/vishruth143/Playwright-Python-Automation-Framework

- Architected a production-grade, layered Page Object Model (POM) framework using Playwright for Python, supporting UI, REST API, and Mobile automation under a single PyTest runner.
- Implemented multi-browser execution (Chromium, Firefox, WebKit) with auto-wait, built-in video and trace capture on failure, and parallel execution via pytest-xdist — reducing regression runtime by ~70%.
- Engineered environment-driven configuration (YAML/JSON/Excel) with multi-region (DEV/QA/STAGE/PROD) routing and a custom xdist-aware rotating logger for parallel-safe output.
- Integrated Allure and HTML reporting, screenshot/trace capture on failure, and a thin Playwright APIRequestContext wrapper enabling API testing alongside UI tests.
- Containerized execution with Docker and automated CI/CD via GitHub Actions; enforced Pylint code quality at a mandatory 10.0/10 score.

- Demonstrated end-to-end QE coverage: UI (POM + cross-browser), REST API (JSON schema validation), and performance testing patterns — all production-ready and open-source.

PROFESSIONAL EXPERIENCE

EPAM Systems — Project Manager / Quality Engineering Manager I *Jun 2021 – Present*

Clients: *Darden Restaurants (Retail) • Canadian Tire Corporation (Supply Chain) • Syncron (Aftermarket SaaS) • CVR Energy (Oil & Gas)*

Key Programs: Oracle ATG/BCC → commercetools Migration (Darden), Dynamic Dispatch (Canadian Tire), CSR / BRMS / GraphQL *Apollo Gateway / Insights / Uptime (Syncron), Crude and Fertilizer Portals Redesign (CVR Energy).*

- Lead end-to-end delivery and quality engineering for strategic programs including Darden's Oracle ATG/BCC → commercetools migration, Canadian Tire's Dynamic Dispatch, Syncron's CSR / BRMS / GraphQL Apollo Gateway / Insights / Uptime platforms, and CVR Energy's Crude and Fertilizer Portals redesign builds.
- Manage cross-functional Agile teams of 10+ engineers (Dev, QA, SDET, DevOps), own sprint planning, backlog grooming, capacity planning, risk mitigation, and executive stakeholder reporting.
- Defined and executed automation strategy using Python/PyTest, Selenium, Playwright, Cypress, and Terraform — achieving 90%+ regression automation coverage and a 40% improvement in regression efficiency.
- Drove CI/CD adoption (Jenkins / GitHub Actions) integrated with AWS infrastructure, GraphQL schema validation, and microservice contract testing — enabling daily, low-risk releases.
- Institutionalized quality KPIs (defect density, escape rate, automation coverage, cycle time) and presented quality dashboards to client leadership.
- Recognized with EPAM IMPACT Award (CEO), multiple 'Performance Champion', Delivery Excellence', and 'Pat on the Back' awards.

Tata Consultancy Services — QA Lead / Test Analyst / Project Coordinator *Nov 2009 – Jun 2021*

Clients: *AXA Equitable • Allianz Life • MoneyGram • Athene (8+ years onsite, USA)*

Key Programs: *Docupace Workflows, AW.Nxt, IBM MDM Consumer Profiles (Phases I–III), Global Receipts (Phases I–II), PowerTransact, OnBase Upgrade, Life Pro+ Enhancements & Annuity Print, NIPR Vendor Change/Sync, SNAP Enhancements, Web Image Upload & Critical DB Move, Producer Confirms / Producer Services / NY Commissions, Teamworks & BizTalk Upgrade, CCW & CSI, IVR Testing, Print Vendor Consolidation, BD PReFS, LCA (Licensing, Contract & Appointment), TCS-AXA Web Portal.*

- Led QA delivery across complex Insurance, Annuities, and Financial Services programs — covering integration, system, regression, UAT, and production verification testing.
- Partnered directly with US-based business owners and product teams (8+ years onsite) to translate compliance and regulatory requirements into executable test strategies.
- Spearheaded the transition from manual to automated testing using Selenium, Jenkins, and Bamboo — reducing regression effort by ~50% and defect leakage by 30%.
- Mentored and grew QA engineers across multi-vendor, globally distributed teams; owned defect triage, RCA, and continuous-improvement initiatives.
- Honored with TCS 'On-the-Spot Award', QA Star', 'Star of the Month' (3x), and client appreciation from Allianz, MoneyGram, and Syncron.

TECHNICAL SKILLS

Languages: Python, Java, C# and JavaScript
Test Automation: Selenium WebDriver, Playwright (Python), PyTest, Pytest-BDD, Appium, Requests, Allure, Locust, K6, Cypress
DevOps / CI-CD: Jenkins, GitHub Actions, Azure DevOps, Docker, Terraform
Cloud & Platforms: AWS, Azure DevOps, Selenium Grid
Tools: JIRA, Confluence, Postman, GitHub, PractiTest, OnBase, ServiceNow
Methodologies: Agile (Scrum, Kanban), SAFe, LeSS, Lean, Hybrid, Predictive (Waterfall)
Quality Practices: Shift-Left, Shift-Right, Risk-Based Testing, BDD, TDD, Contract Testing, Performance Testing

CERTIFICATIONS

- PMP® — Project Management Professional, Project Management Institute (2025)
- CSM® — Certified ScrumMaster, Scrum Alliance (2015)
- ISTQB® — Certified Tester, Foundation Level (2012)

KEY ACHIEVEMENTS

- Delivered 90%+ automation coverage across multiple enterprise programs, improving regression efficiency by 40% and shrinking release cycles.
- Reduced production defect leakage by 30% through Shift-Left adoption and CI-integrated quality gates.
- Built and led globally distributed QA/SDET teams of 10+ across India and the USA.
- Recipient of EPAM CEO IMPACT Award and 6+ internal/client excellence awards.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering

Siddaganga Institute of Technology, Tumkur, Karnataka | 2005 – 2009

PERSONAL DETAILS

Date of Birth: 15-Mar-1988 • **Nationality:** Indian • **Languages:** English, Kannada, Hindi, Telgu
